

Sohag Ali

Full Stack Web Developer

Phone/WhatsApp: +8801302243428 | Email: sohagahmed056@gmail.com
LinkedIn: linkedin.com/in/sohagalidev | GitHub: github.com/Sohag-Ahmed056

Skills

Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS

Backend: Node.js, Express, MongoDB, Prisma, REST API, PostgreSQL

Tools: Git, GitHub, Docker, Postman, VS Code

Soft Skills: Problem Solving, Teamwork, Communication, Time Management

Work Experience

NirmanIT — Backend Engineer (Remote)

Oct 2025 – Present | Dhaka, Bangladesh

- Contributed to multiple production projects including HelpUp, HotelCity, and a POS application.
- Designed and developed RESTful APIs using Node.js and Express.js to support core business features.
- Built backend services for HotelCity (hotel listings, bookings, user management) and POS (order processing, inventory, transactions).
- Collaborated with cross-functional teams to deliver reliable, scalable backend solutions on schedule.

Projects

1. Digital Wallet System

Technologies: React, TypeScript, Express.js, MongoDB

- Developed a secure and scalable digital wallet system with user, agent, and admin roles.
- Implemented JWT-based authentication and role-based route protection.
- Enabled users to manage wallets, transfer money, and view transaction history.
- Built agent features for cash-in/cash-out, commissions, and admin approval requests.
- Provided admin controls to monitor data, manage agents, and block/unblock wallets.
- Designed RESTful APIs with search, filter, sort, and pagination for efficient data handling.

2. TourBuddy: Tour Partner Finder

Technologies: Next.js, TypeScript, Express.js, PostgreSQL

- Developed a full-stack platform for posting tours, joining others, and receiving AI-powered suggestions based on user preferences.
- Built RESTful APIs with Express.js and PostgreSQL/Prisma for user profiles, tour posts, and participation records.
- Integrated AI recommendation engine to analyze user behavior and suggest tailored tour opportunities.
- Implemented role-based access control (admin/user) and individual chat between travelers.
- Optimized API endpoints and database queries for high performance under concurrent user load.

Certifications

- Next Level Web Development Bootcamp – Programming Hero

Languages

- Bangla (Bengali): Native proficiency
- English: Professional working proficiency

Education

Green University of Bangladesh

Bachelor of Science in Computer Science and Engineering (CSE) | Expected Graduation: 2026
Dhaka, Bangladesh
